

CARGO PROTECTION

Fresh or frozen, increase product storage life at sea and on land

TRANE
TECHNOLOGIES

RELENTLESS PROTECTION

Keeping cargoes in perfect condition at sea and on land

Thermo King is the world leader in transport temperature control systems, with a wide range of solutions spanning road, rail, and marine. For shippers moving frozen cargo by sea, we are the only manufacturer that can offer premium cooling capacity and precise temperature control all the way down to -70°C .

Delivering you value x3

①

Trusted reliability

and being confident that any load will arrive in the same condition as when you sent it.

②

Powered consistency

knowing you can set a precise temperature (anywhere down to -70°C) and trust the container to keep it there.

③

Cold chain integrity

dependable power, across land and sea, with no deviation in the set temperature.

SuperFreezer refrigerated containers – ultra-low temperatures

Preserve first day product freshness through long distance sea transportation by loading super-frozen cargo into pre-cooled -70°C SuperFreezer containers.

Magnum® Plus container refrigeration – keep your temperatures tight

For all types of fish even sushi grade type, the Magnum Plus offers fast pull-down capability and even box temperatures down to -40°C in a 50°C ambient environment.

**100,000
units in
service**

Did you know the
Magnum Plus has
100,000 units
in service –
criss-crossing the
globe with over a
million journeys?

The SG400i and 3000 genset series

A trusted source of electric power for
refrigerated containers – as soon as it hits
the road.

6%
fuel savings
compared to the
competition.
