

Date: August 21, 2025
Subject: TrackKing® August 2025 Release Notes
Location: e-Tech Library

Product: TrackKing.com, TrackKing Pro

Description: August 2025 release notes for the TrackKing website are listed below.

Customer Issues – TrackKing

1. Upcoming Beta Feature: Remote Zone On/Off Control feature is not yet available, but the UI will be visible.
 - Beta Feature: In the coming months, the TrackKing portal will allow Remote Zone On/Off control via batch or single commands.
2. iPhones with multiple cameras are unable to scan a TKV5 barcode using the TK Connect App.
 - Existing Behavior: Unable to scan the barcode using the TK Connect App.
 - New Behavior: Added barcode selection alert to show all scanned barcodes. User can now pick the correct one manually from the alert.
3. TK Connect App crashes upon launch using Android.
 - Existing Behavior: Upon launching the Android device and opening the TK Connect app, the application would crash and display an error stating: "Something went wrong with TK Connect."
 - New Behavior: After launching the Android device and opening the TK Connect app, the application now opens successfully without crashing.

Best regards,
